

IMPORTANT NOTICE!

PRESIDENT OF THE UNITED STATES PROCLAIMS
FRIDAY, JUNE 28, 1918

National War Savings Day

MEETINGS WILL BE HELD IN EVERY COMMUNITY TO
SECURE SUBSCRIPTIONS FOR WAR SAVINGS STAMPS

Pursuant to the proclamation of the President of the United States and the Governor of this State, I, War Savings Director for Rockcastle county acting under the authority of the United States Treasury Department, have called all tax-payers and wage-earners to meet on Friday, June 28th to give their subscriptions for War Savings Stamps. Meetings will be held in the school houses at 2 p. m.

The school officers in most places will conduct the meeting in each school house, keeping a record of the proceedings and reporting the names of all persons present and the amount of War Savings Stamps subscribed for by them. The names of absent persons, and of those who refuse or neglect to subscribe with their reasons for so doing, will also be reported.

War Savings Stamps (which are United States Government Bonds the same as Liberty Bonds) can be paid for during any month in the year 1918, but it is intended that subscriptions will be signed for them on June 28.

The price of each War Savings Stamp depends upon the month during which it is bought. During June each Stamp will cost \$4.17. In July each Stamp will cost \$4.18, and so on, one cent more each month during 1918. On January 1, 1923, the Government of the United States will redeem all War Savings Stamps at \$5.00 each, no matter during which month in 1918 they were bought. They cost less during the early months in 1918 than during the later months because the person who buys earlier has loaned his money to the Government for a longer time than if he buy later. By way of illustration note the following table:

COST OF WAR SAVINGS STAMPS DURING JUNE, JULY AND AUGUST, 1918

	Cost in June	Cost in July	Cost in August	And are Worth on Jan. 1, 1923
1 Stamp	\$ 4.17	\$ 4.18	\$ 4.19	\$ 5.00
20 Stamps	\$1.40	\$1.40	\$1.40	100.00
50 Stamps	\$2.08	\$2.09	\$2.09	250.00
100 Stamps	\$4.17.00	\$4.18.00	\$4.19.00	500.00
200 Stamps	\$8.34.00	\$8.36.00	\$8.38.00	1,000.00

The law provides that no person can hold in his own name War Savings Stamps exceeding \$1,000 maturity value. War Savings Stamps, however, may be purchased for other member of the family, including minor children.

The money invested in War Savings Stamps is not a gift, or a donation, but is a loan to the Government. It will be paid back with a 4 per cent compound interest. It, because of some serious financial reverses, or calamity, it should be necessary to get your money before January 1, 1923 you may do so by giving ten day's notice to any Money Order postmaster, in which case you can get what you paid for the Stamps, with interest to date of payment. The Stamps are free from all State and local taxes; when registered at the post office they are insured against loss; they are backed by all the property in the United States; they cannot fall in value below the price you pay; they are as convenient and as well paying an investment as has ever been offered by our Government.

A definite quota of War Savings Stamps has been assigned each school district and community, which will be announced at each meeting on June 28th. The Government of the United States expects all the citizens of every school district and county to subscribe for its quota and to pledge themselves to save and economize to help win the war.

It is to be hoped that the subscriptions taken at the meetings in your district will show you and your neighbors to be loyal Americans to whom our Government, in this hour of need, does not call in vain.

which are the barns. They are built right together with sometimes one wall surrounding them both and just a big open court between, but to be fair these little towns are in my opinion cleaner than our ordinary American village. Most all the gardens are surrounded by high stone walls and on my way from Paris I passed some historical old gardens that I would like so much to write about, in fact there are so many things that I would love to write about, but some of our Y. M. C. A. men have been severely criticized for disregard of the rules of censorship that I want to try and stay within them. During the ten days I spent at this camp I worked in the canteen. I know the people at home are interested in the way the Y. M. C. A. is spending their money and I believe from the number of huts that I have seen that the one I worked in is a fair sample, so I want to give something of the work there. I am not permitted to give the size of the building or the number of men attending meeting, as this would be regarded as information of military importance. I left here on Saturday afternoon on top of a motor truck loaded with supplies and in a drizzling rain. It was the coldest rain I ever felt and when I reached camp I was like Geo. Frederick. I was looking for the man who said "Sunny France". Muddy France would have a better title at that time, because when it rains, it is the muddiest mud you ever saw. It has all the color of our blackest land and all the stickiness of our red clay with a large margin to spare and when it gets dry and bakes it is as hard as a brick. Of course the Y. buildings here are not usually as well equipped as in the home camps. This hut has one large room with the canteen in one end. It has a graphophone and piano. Pens and paper for writing with tables, papers and magazines and how the boys do enjoy these home papers even though they are a little old. The next day after I arrived I saw a big bunch of men completely absorbed in the funny sheet of one of our Sunday papers. I went to take a look myself and was very much disappointed to find I had seen it on my last Sunday in Mt. Vernon. Funny how childish all men get over here. On Sunday we had two religious services. One of the Chaplains preached in the morning and the Y. M. C. A. religious secretary in the evening. The American Expeditionary Force is more interested in religion than any of you people back home are dreaming of. There is a man in charge of athletics for the boys, which is great source of pleasure as well as real benefit to them. Bible classes are carried on with the cooperation of the Chaplains and Y. M. C. A. men. A small library of good books is provided and the boys simply devour them. Good moving pictures at least three times a week along with lectures and other good clean entertainment, with special nights for "stunts", boxing, wrestling and other sports. Last week we found a soldier who was a hypnotist and I have seldom spent a more laughable evening than the one watching him perform on the boys who would volunteer. In addition to carrying on as many of the activities which we have back home as we can, the Y. has charge of the canteen, which in itself is a blessing for the boys, as they can buy so many of the little necessities which they could possibly not get at all were it not for this canteen. The government would have run a canteen, but under such different environment and at the same time, this work being done by the Y. M. C. A. releases many soldiers who would be held for this service. When I first heard of the Y. M. C. A. taking over the canteens, I doubted the wisdom of it and so did many others, but General Pershing had asked

E. R. Gentry Writes Long and Interesting Letter From Somewhere In France

Somewhere in France,
Editor, Mt. Vernon Signal,
Mt. Vernon, Ky.

Dear Edgar:

When I went down to supper tonight, I found waiting me a copy of the Signal. It had been a blue rainy Sunday and I never realized how much that little old scrap of paper from HOME could mean to a fellow. I could hardly finish supper before reading it. It was the issue of April 4th. I somehow missed the March 29th issue. After supper I hurried to my room and for nearly an hour I again lived and felt the thoughts with the people of dear old Rockcastle. So completely absorbed was I that when I finished I could hardly realize that instead

of actually being with them, I was thousands of miles away in a quaint and historical little French city. Along with the same mail came a letter from Brother Young and Prof. Irvine, and they both did my heart good. It has only been three weeks since I wrote a letter for the Signal, but there are so many things that fill your life over here and you are so closely in touch with the great issues that are being more desperately fought out now than ever before, you are so intensely interested in anything and everything connected with it, that you just must give some expression. As long as your readers are interested in these letters, I publish them and when they get tired just cut them out.

I visited many points of interest in and around Paris the last few days I spent there and having successfully dodged the bombs and long range shells for ten days, I left on April 19th being assigned to the division of which my present location is the Y. M. C. A. Headquarters. I spent one night here and on the 20th was sent out to a camp eighteen miles away where I spent ten days in the loveliest country imaginable. For miles and miles the same beautiful fields and splendid roads that I have seen since entering France, dotted here and there with little villages with typical French stone houses and red tiled roofs for be it remembered that in France people do not live on farms but all live in these little villages and go out to their farms. Americans have one difficulty with these villages when they reach them and that is telling which are really the houses and

them to do it, and there was no one who wanted to refuse to do anything that the Commander in Chief thought would help the fight here. The money invested in these canteens, however, is not the money given by the people. The leaders were unwilling to use that, because nothing of the kind was in the minds of the people who gave it, so Five Million Dollars was borrowed at a very low rate of interest and personally secured by some rich men in New York, for the purpose of carrying on this business. Everything is sold to the boys as nearly as cost as can be done without

losing money, many things far below what they can be bought in the states for and of course some things higher. All profit accruing from the business goes into a fund to help soldiers right up at the front. A detail of three soldiers were permanently located at our building to help with the work, supposedly to look after the building but out there we all worked on the same basis. Everybody did what there was to do and when it came to sweeping, we all swept and if I were to tell you how much dirt we swept off that floor every morning, the censor would probably

cut it out as being information of military importance. In many places soldiers cannot be spared and the secretaries take care of everything. If the boys thought they appreciated the Y. at home you ought to hear them over here. Oh, occasionally you hear one complain, and the complaint is justified, perhaps, because you cannot always get the right men for secretaries and if the secretary is grouchy, or a crank, or "Sissy", the boys don't like it but they are learning where to put the blame and do not blame the Y. but they will

make it so hot for the secretary that he gets a moving order and he ought to have one. You would be surprised at how many secretaries are sent home. But there is almost unanimous praise for the work. I saw a captain, a man of about 45, walk into the Y. here in town the other day. He walked right up to the Y. woman behind the counter, a woman much older than he was and said, "You certainly do look good to me. I have been right in the trenches for six weeks and I haven't seen an honest to goodness American woman in six months." I looked up and there were tears in that big strong fellows eyes as he began to talk of the great work that the Y. M. C. A. was doing among the soldiers. Then we all gathered round and he talked about his wife and children and home. So when you hear anyone from this side saying anything against the Y. M. C. A., you may know that it is an isolated case. Of course there are huts and tents and dugouts right up to front line trenches and many of them are not nearly so well equipped as the one I have mentioned and some of them with practically nothing to work with but they are doing the best they can. I would tell you that I was not assigned as close to the front as I wanted, but most of you would not believe it, because you cannot really understand how it is over here. Whether you believe it or not, everybody over here is scrambling for the front, Y. M. C. A., men as well as soldiers. Men who enlisted in the quartermaster's corps and other non-combatant organizations are now trying every way in the world to get transferred to active service, so they can get up front. "Something just gets into your blood over here. I saw a fellow here yesterday who was just recovering from a dangerous shrapnel wound in the neck and he was just crazy to get able to rejoin his company at the front. Men have told me that they have seen fellows who were held back, possibly sick or for some other reason, cry like children, when their company marched off to the front. Who would not have thought this of peace loving American citizens a few years ago? I must tell you something of the work in the larger cities. I have been in two or three besides Paris in which the Y. has rented hotels and furnished the boys rooms and meals at a reasonable rate with waiters who can at least talk enough English to serve you a meal in good old American style. In Paris they have at least four or five such hotels, besides in all the large ports of entry and other cities where troops are passing thru or stationed. You cannot imagine how much even this means to a man in a foreign country. The larger cities and especially Paris we have a man whose business it is to organize sightseeing parties for soldiers in the cities and around for amounts just sufficient to look after transportation. The man who does this work in Paris is an expert at it and a soldier party in Paris learns more about the things of interest there in one day than the average tourist used to do in a week. Is not this a wonderful work and where would those boys likely drift in the great wicked city of Paris were it not for these parties and hotels and wholesome entertainments furnished by the Y. M. C. A. And the boys never forget it. I was walking down the streets with one of the workers today and a great big

husky American soldier started from the other side of the street, ran up to the party I was with and said "Didn't I see you in last November", naming one of the large ports of entry. The Y. worker said you might, I was there. The fellow said "Oh yes, I'd never forget you. You gave us a cup of hot chocolate and an apple, as we got off the transport." I thought of the Scripture about the cup of cold water. It is remarkable the people you meet over here and how you meet them. The next day after I went to camp, a big tall youngster was introduced to me by the name of Hurt. Said he heard I was from Kentucky, that I might know his father, Judge Hurt of the Court of Appeals. One day while in Paris, two soldiers were eating across the table. One a very small fellow, looked just like a boy. I got to talking to them and after a while the larger one who was from New York told me that the other was "Kid Rickards" the Chicago motor racer. The day before I left Paris I went down to the Y. M. C. A. to get my railroad ticket and moving orders. The girl who gave them to me asked me if I would bring a little package to a lady here. I assured her that I would be glad to do so. She handed it to me and I nearly fell down the stairway. It was addressed to Mrs. Ella Wheeler Wilcox. I took care to deliver the package in person and had a half hour conversation with her. I have seen her several times since. She gave me a copy of one of her poems.

On April 30th the Division Secretary sent for me to come in to headquarters. He took me back into his office and told me he had a very delicate proposition to handle and ask me if I would be willing to take charge of a Y. M. C. A. Tent for colored troops. I told him I came over here to do anything there was to do. He said he knew that but insisted on knowing how I really felt about it and when I assured him that I was perfectly willing to do it, the matter was settled. When I talked further, I found that the tent I was to take charge of was still out in the headquarters warehouse and had to be put up at the camp some miles away, so one other Y. man and I started out to get it up. We tried to get a detail of soldiers to help but none were available. We tried to hire French help but failed, so we just went after it ourselves and after four days of stake driving, rope pulling and ditch digging, we have it about up and will open the first of the week. The tent will be pretty well equipped; having a canteen, moving pictures, phonograph and piano and so on. I am really figuring on having a great time, as soon as I get use to the aeroplanes. Since my Paris experience, it makes me a little shaky to see one and they pass over this camp continually to and from the front. You have queer feelings when those fellows sail away towards the battle line and you wonder how many of them are coming back. Sometimes they are observation planes and again war planes, carrying bombs and machine guns. You always wish them success as they go and are always glad to see them as they come back usually flying low, like a bird after a long, tiresome journey. Yesterday I saw a strange one coming. I made sure it was a Boche and fixed to run, but a little French boy managed to tell me that it was an Italian plane.

I must tell of my experience today and then I will close this long letter. I went over to the American hospital near here to preaching services this morning. After the service I decided to go in and see some of the boys. While in the ward where six or eight soldiers who had broken limbs were and talking to them, I noticed a right young boy. He did not look more than sixteen, but I afterwards learned he was eighteen. I went over and began talking to him. I ask him him where he was from, what outfit he belonged to and incidentally who his Captain was. His eyes brightened up and an expression of pride came over his face as he said "Captain Roosevelt and Major" and then I learned his story as only an enthusiastic youngster could tell it. About forty or fifty of his

company in one of the fights were surrounded by an intense barrage fire, separating them from the rest of the company and cutting all communication. Being largely outnumbered they were fighting against desperate odds, but would not retreat without orders to do so. Captain Roosevelt realized that if they did not fall back they would be completely annihilated. He refused to send any of his men with the order, but after arranging for five or six to follow him in succession in case he failed, started to the little bunch to give the order himself. He only went a short distance until he went down with a broken arm and leg and this boy was the first to follow him. He was struck by a piece of flying shrapnel and knocked unconscious and his arm broken, his steel helmet saving his life, and he fell near the Captain. The men continued to come and it was either the fifth or sixth man who managed to reach the little group and give the order how to move and saved them. In the mean time, Captain Roosevelt had managed, although his arm and leg was broken, to get this boy into a dug out or place of safety of some kind, until first aid could reach them, but absolutely refused any assistance to himself until all the other men who followed him were looked after. There was no need for me to ask that boy what the company thought of their Captain. I have been hearing since coming over that the Roosevelts are a "chip off the old block" and this begins to look like it. I hope the censor lets this story by as it strikes me as typical of the spirit with which our men are fighting over here as is further testified to by the long list of men who have been decorated for bravery by the French Government. If we can just get that same spirit of sacrifice for the cause at home the boys in the trenches will do their part.

There are so many things I would love to tell, were it permissible. You no doubt saw the account of the gun which fired the first shot, being returned to America. It passed through our camp. I would love to tell you of the great hospital train I had a chance to go through and about the camouflage plant. Most people have an ample supply of camouflage on hand, but I do not think the censor will mind me telling you that the U. S. Government has to manufacture some, because their home supply is not available and I am afraid would be an inferior quality besides.

This is an awful long letter and you may have to make a continued story out of it, but I promise not to write again for a month or two any way. I wish everybody who knows the address, that is, the regiment and company of a Rockcastle boy in France would send it to me at 12 Rue D'Aguesseau, Paris, France. This is my correct address, no matter what I have said in the past, and I want to see whether I have a chance to get in touch with them.

I am as ever,
E. R. GENTRY.

CATARRHAL DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & Co., Toledo, O.

Keep Faith With Your Boy "Over There"

When your boy was so little that all the world was a foreign country to him, he trusted you to take care of him.

You sent that boy to school and to play and on your little errands, and with implicit faith he did your bidding.

Now we have sent your boy or your neighbor's boy out into a foreign land, into terrors that we cannot even know—and his faith has not faltered. He knows we will do our part, and we know he will do his.

Are we keeping the faith? Are we scrimping and saving and giving to help our boys do the thing that humanity has asked of them, and to help them come back to us sane and whole?

NATIONAL DEFENSE

It is the duty of the Council of National Defense to see that each person acts fair with the Government, does nothing detrimental to our army or war activities, helps the Food and Fuel Administrators, helps the Local Board and the Federal and State Courts to enforce to the letter the laws that keeps the morale of the country up to the highest standard. If there are

any in the draft age who have failed to register they must be dealt with according to law. Deserters must be brought to justice. Idleness must be investigated and stopped, and all discontinued.

Help must be procured to harvest the crop of wheat, oats and grass. Every farm must be made to produce its maximum crop, considering size, fertility, and available labor. These crops must be harvested and saved; no waste can be tolerated. This is all unpleasant work; it is work

that under normal conditions would be very unpopular, but with the necessity so great, and stringent laws to back it up, it will be carried out regardless of who it might displease, or who it might work a hardship on. So it is now time for the people to adjust themselves to the conditions, and do their best for the Cause of Liberty.

Langdon grounds, and anticipates
arrival of wife and daughter in
few days.

On account of this change of
dates there will be no preaching
service in this church on Sunday
June 23, but Sunday School and
Junior C. E. will meet as usual
during entire vacation period.

TO HEAD LOGAN COLLEGE

The Rev. Dr. A. P. Lyon, pre-
siding Elder of the Louisville dis-
trict of the Methodist Episcopal
Church South, has been elected
president of Logan Female Col-
lege, located at Russellville, Ky.
Dr. Lyon has served as president
of the board of the college for a
number of years, but the election
as president of the college puts
him in active charge of the in-
stitution. He will remain in
Louisville until August 1, when
he will move with his family to
Russellville to take up his duties
there when the fall term opens in
September. He will continue to
serve as presiding elder of the
Louisville district until the con-
ference meets in September.

Dr. Lyon is the father of our
efficient Principal, Prof. D. H.
Lyon.

The Brodhead Fair Association
is just in receipt of some peti-
tions requesting the managers
not to put on a fair this year
on account of the war. We per-
sume these petitions were cir-
culated without the knowledge of
the intention of the fair directors.
We contemplate putting the fair
on a strictly patriotic basis. The
company proposes to give War
Savings Stamps as premiums and
are considering the proposition
of donating all the proceeds
above actual expenses to the Red
Cross management at
Livingston, Mt. Vernon and
Brodhead will take the matter up
with me and take over the soft
drinks, water melons, ice cream
etc., I believe they could make
several hundred dollars towards
our next quota. We are sure
to be called on again and again
for money for the Red Cross.
Hundreds of people would con-
tribute in this way that would
not contribute in any other.
The young men of the county
who are not old enough to go to
the war and the young ladies
who have sweethearts in the war,
would gladly do all the work free
of charge. I would like to have
a letter from the chairman of
National Defense committee for the
county. The chairman of the
War Savings committee and the
chairman of the Red Cross com-
mittee, that the directors of the
fair may have the benefit of your
views when they meet to consider
these petitions. To hold the fair
not only to be the sensible thing
to do, but a highly patriotic duty.

Very respectfully,

GRANVILLE OWENS.

Dear father and mother:

Will drop you a few lines

to let you know I am well and en-
joying life time. Had a nice trip
over sea, didn't have very much
trouble with the German subs as
they were very quiet. Found it
a beautiful country over here,
every thing green and flowers in
bloom and some awful nice people
altho some very large mountains,
but you find most of the land
is smooth. Not very much farm-
ing all in grass. Some of the
finest sheep I ever saw and most
any thing that can be kept on a
farm. Guess every body near
home are farming right along are
they not? What is brother Vol-
ley doing? Tell him to write.
How are all of grandpa's, well I
hope. Tell them hello. As it is
late, will close. Give best re-
gards to all.

Your son,

Silas French,

The Council of Defense is being

reorganized to comply with the

present act of the Legislature,

and will now take active steps to

see that every able bodied man

between the age of 16 and 60

years of age works to support

himself and those dependent on

him. Having sufficient means to

live on, or claim of not being able

to find work is no lawful excuse.

This law applies to all, and will

be enforced in this county.

Next Sunday is Children's Day

offering, which will be observed

by every Sunday School of all

Disciple churches. Don't forget

this, this only comes once a year

and no cause is greater than the

one this represents. Be at Sun-
day school somewhere and have
your pocket book along.

Catarrh of Stomach Did Not Know It

Nearly Starved

PERUNA Made Me Well

Mrs. Selena Tanner, Athens, Ohio,
writes: "I cannot find words to ex-
press my thanks for your kind ad-
vice. I never once thought I had cat-
tarrh of the stomach. I commenced
taking Peruna, as you directed. My
stomach continued to hurt me for
about two weeks after I began the
medicine, and then it stopped. I now
have a good appetite, while before
I was nearly starved."
Those who object to liquid medi-
cines can procure Peruna Tablets.

PASTE the KAISER WITH W. S. S. ON June 28th

Paste him in the eye with a War Savings Stamp—then paste him again and
again. Don't think that you have already done your duty. Pershing's men "over
there" don't go home after their first battle—they go after the Huns again—they
keep on pasting the Kaiser.

Your government has officially set Friday, June 28th as

National War Savings Day

On that day every American is asked to "sign the pledge"—to invest in a definite
amount of War Savings Stamps each month. Every real American will prove his
patriotism by agreeing to regularly paste the Kaiser.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.
